

' vol. 3 IN/OUTDOOR

CHAIR and SMALL ARMCHAIR

One-piece reinforced polypropylene.

Seat pad: heat-molded flame-retardant fabric bonded to foam.

Chairs can be stacked up to 8 high.

Small armchairs can be stacked up to 4 high.

TABLE

Reinforced polypropylene over steel column and base covered in polypropylene.

NOTES:

- minimum order for chairs and small armchairs: 4 items or multiples of 4 in same color and model
- shading and other minor color variations, more visible in black, are inherent in the material and are not a defect
- tables are not recommended for commercial and intensive use as the material does not tolerate sustained temperature ranges above 30°C or prolonged direct exposure to sun.

' vol.3 IN/OUTDOOR

CHAISE et PETIT FAUTEUIL

Monocoque en polypropylène renforcé.

Coussins thermoformés avec mousse et tissu ignifuge.

La chaise est empilable (jusqu'à 8 unités).

Le petit fauteuil est empilable (jusqu'à 4 unités).

TABLE

Polypropylène renforcé avec colonne et base en acier revêtu en polypropylène.

NOTES:

- commande minimum pour chaises et petit fauteuil :4 pièces ou multiples de 4 de la même couleur et du même type d'article
- le noir plus que toutes les autres couleurs, met plus en évidence les ombres qui sont typiques du matériau et ne constituent donc pas un défaut
- la table n'est pas adaptée à l'utilisation intensive dans les collectivités parce que le matériau ne supporte pas une excursion thermique supérieure à 30 °C et une exposition directe au soleil.
